Data

Featured in the Data RoundUp this week:

- Uptime Symposium keynote by IO CEO George Slessman (2011)
- The old days of TED Talks
- Latest Google Glass video
- Popular Infographic on the explosion of Big

Big Data Just Beginning to Explode (Social Media-Max) [INFOGRAPHIC] *Illustrating the importance of shifting from "collecting to connecting data", to search relationships between data sets which helps reveal valuable new insights.*

The Last Snowflake (YouTube) *IO's CEO gives the keynote speech at the 2011 Uptime Symposium.*

Brief History of TED (LinkedIn) *Before there were TED Talks, there were TED Tapes, CD ROMs, and DVDs.*

Free Public Wi-Fi to Get Faster (CIO) *In response to the soaring use of data-hungry wireless devices in public mobile broadband hot spots, government regulators have voted in favor of increasing free public Wi-Fi capacity.*

Google Glass (YouTube) *Best video yet showing the capability & uses of Glass.*

New Ferries on the Hudson (Twitter) *The new ferries are here. "York" &*

"Jersey" are cleaner, faster, quieter, & open to the public.

From 1G to 4G: History of Cell Phones (The Next Web) [INFOGRAPHIC]
Three decades of mobile phones.

Critical Adobe Patch Released (PC Mag) *The exploit was discovered by the security company FireEye and is reportedly the first to bypass the sandbox technology used by Adobe in their software.*

Vincent Orleck is the Social Media Specialist at IO.
