IO Announces Contract with Broker Brain

Phoenix, AZ - October 24, 2011

IO, the leading provider of next-generation **modular data center** technology and services, announced today that it has been awarded a contract with Broker Brain, a leading provider of real estate owned (REO) asset management tools.

As part of the agreement, IO will provide Broker Brain with **Data Center as a Service(DCaaS™)** at **IO Phoenix**, delivered through its modular technology platform IO.Anywhere®.

"Our customers require instant access to our systems and their data," said Glen Stephens, Vice President of Broker Brain. "IO's state-of-the-art data center and modular technology platform will ensure our IT systems and applications are available 24x7xForever."

About IO

IO is a global leader in software-defined data centers and has pioneered the next generation of data center infrastructure technology. IO's integrated hardware and software data center technology platform offers enterprises, governments, and service providers an innovative way to deploy, provision, and optimize data center capacity anywhere in the world. IO technology lowers the total cost of data center ownership compared to traditional data centers, enabling dynamic deployment and intelligent control based on the needs of IT equipment and applications in the data center.
