IO Announces Contract with Nerds in the City

Phoenix, AZ - October 10, 2011

IO, the leading provider of next-generation **modular data center** technology and services, announced today that it has been awarded a contract with Nerds in the City, a leading provider of IT services and solutions for small and medium-sized businesses.

As part of the agreement, IO will provide Nerds in the City with Data Center as a Service (DCaaS™) at **IO New Jersey**, delivered through its modular technology platform IO.Anywhere®.

About IO

IO is a global leader in software-defined data centers and has pioneered the next generation of data center infrastructure technology. IO's integrated hardware and software data center technology platform offers enterprises, governments, and service providers an innovative way to deploy, provision, and optimize data center capacity anywhere in the world. IO technology lowers the total cost of data center ownership compared to traditional data centers, enabling dynamic deployment and intelligent control based on the needs of IT equipment and applications in the data center.
