# IO Announces Contract with Technical & Business Consulting

Phoenix, AZ - October 17, 2011

IO, the leading provider of next-generation **modular data center** technology and services, announced today that it has been awarded a contract with Technical & Business Consulting (TB Consulting), a leading technology solutions provider.

"IO provides TB Consulting the most secure and reliable data center capabilities available in the market today with IO.Anywhere®," said Dieter Gable, CEO of TB Consulting. "Our clients depend on us for 100% uptime and we're able to deliver this through IO's large-scale, cost-effective data centers."

As part of the agreement, IO will provide TB Consulting with **Data Center as a Service**(DCaaS™) at IO Phoenix in a dedicated IO.Anywhere module.

IO's dedicated suites, modules and data center services are highly valued for their private physical infrastructure, customer-controlled systems and service level agreement protection. Scalable from 200KW to multiple megawatts, IO provides a state-of-the-art environment to ensure your mission-critical IT systems and applications are always available 24x7xForever.

## About IO

IO is a global leader in software-defined data centers and has pioneered the next generation of data center infrastructure technology. IO's integrated hardware and software data center technology platform offers enterprises, governments, and service providers an innovative way to deploy, provision, and optimize data center capacity anywhere in the world. IO technology lowers the total cost of data center ownership compared to traditional data centers, enabling dynamic deployment and intelligent control based on the needs of IT equipment and applications in the data center.
