# IO CEO to Present at Tier1 Research Hosting & Cloud Transformation Summit

Phoenix, AZ - September 13, 2010

IO Data Centers ("IO"), the leading provider of enterprise colocation and data center solutions, announced today that George Slessman, CEO of IO, will present at Tier1 Research's Hosting & Cloud Transformation Summit.

The conference is being held September 13-15 at Caesars Palace in Las Vegas, Nevada. Mr. Slessman will sit on a Q&A panel focusing on Trends in Energy Efficiency and Green Technology in Datacenters. The panel is scheduled for Tuesday, September 14th at 1:30pm PDT.

The Hosting & Cloud Transformation Summit is the premier forum for executives in the hosting, datacenter, CDN and cloud Internet infrastructure sectors.

## About IO

IO is a global leader in software-defined data centers and has pioneered the next generation of data center infrastructure technology. IO's integrated hardware and software data center technology platform offers enterprises, governments, and service providers an innovative way to deploy, provision, and optimize data center capacity anywhere in the world. IO technology lowers the total cost of data center ownership compared to traditional data centers, enabling dynamic deployment and intelligent control based on the needs of IT equipment and applications in the data center.
