# IO Director of Engineering to Present at the DataCentre Expo in Dusseldorf, Germany

Phoenix, AZ - September 16, 2010

IO Data Centers ("IO"), the leading provider of enterprise colocation and data center solutions, announced today that Andreas Zoll, Director of Engineering for IO, will present at the DataCentre Expo.

The conference is being held September 16-17 at the Dusseldorf Congress Centre in Dusseldorf, Germany. Mr. Zoll will present on the features and benefits of modular data centers and how enterprises, governments and service providers can rapidly deploy data center capacity worldwide. The presentation is scheduled for Friday, September 17th at 11:00am CET.

The DataCentre Expo is planned to be the largest single event in Europe for the data center industry, gathering hundreds of data center professionals in one place for an annual expo and conference.

## About IO

IO is a global leader in software-defined data centers and has pioneered the next generation of data center infrastructure technology. IO's integrated hardware and software data center technology platform offers enterprises, governments, and service providers an innovative way to deploy, provision, and optimize data center capacity anywhere in the world. IO technology lowers the total cost of data center ownership compared to traditional data centers, enabling dynamic deployment and intelligent control based on the needs of IT equipment and applications in the data center.
